5.1 The Price Proposal, issued by computer or typewritten, written in English, clearly written without amendments, deletions, additions or interlineation duly dated and signed, as well as initialled on all its pages by the bidder or its representative, shall contain:

5.1.1 The characteristics of the object in a clear and precise manner, in compliance with the specifications contained in the Term of Reference.

5.1.2 Total price per item, in numeral, expressed in dollars, in accordance with the prices practiced in the market, considering the quantities stated in the Reference Term.

5.1.3 Delivery time, according to the maximum parameter of the Reference Term.

5.1.4 Term of validity of the proposal not less than 60 (sixty) calendar days from the date of its presentation.

5.2 The participation in the bidding implies full acceptance to total by the bidder of the conditions set forth in this Bidding Process and its annexes.

## **6. FILLING IN THE PROPOSAL**

6.1 The presentation of the proposals implies the obligation to comply with the provisions contained therein, in accordance with the Reference Term, and the bidder undertakes to perform the services under its terms, as well as to supply the necessary materials, equipment, tools and utensils, in quantities and quality suitable for the perfect execution of the contract, promoting, when required, its replacement.

6.2 The prices offered, both in the initial proposal, as in the auction bidding stage, shall be the sole responsibility of the bidder, that is not allowed to plead any amendment, under allegation of error, omission or any other pretext.

6.3 The period of validity of the proposal shall not be less than 60 (sixty) days from the date of its presentation.

## **7. OPENING OF THE SESSION, CLASSIFICATION OF PROPOSALS AND FORMULATION OF AUCTION BIDDINGS**

7.1 The Auctioneer will verify the bids submitted, disqualifying those that are not in accordance with the requirements established in this Tender Process.

7.2 The disqualification of a proposal shall always be justified and recorded in the Minutes.

7.3 The auctioneer will classify the author of the proposal with the lowest price and those who have presented proposals in successive values and higher by up to 10% (ten percent), in relation to the lowest price, to participate in the bidding phase.

7.4 When the minimum number of proposal required (three) in the conditions defined in the previous sub-item is not achieved, the auctioneer will classify the best subsequent proposals, up to a maximum of three, so that their authors may participate in the verbal bidding, whatever the prices offered.

7.5 The criteria adopted will be the lowest price, as defined in this Bidding Process and its attachments.

7.6 If the bidder does not submit auction bids, it shall compete with the value of its proposal.

7.7 The auctioneer will invite the classified bidders individually, in sequence, to submit verbal bids, starting with the author of the proposal classified as the highest price and the others, in descending order of value.

7.8 The bid must be offered for the unit value of the item.

7.9 The withdrawal from submitting a verbal bid, when called by the Auctioneer, will imply the exclusion of the bidder from the bidding stage and the maintenance of the last price submitted by him, for the purpose of ordering the proposals.

7.10 In the event of a tie between proposals, or between proposal and bid, the tie-breaking criterion will be made through a final dispute, in which case the tied bidders may submit a new proposal in a continuous act to the classification.

7.11 If the tie persists, evaluation of the bidders' prior contractual performance, for which registration records should preferably be used for the purpose of attesting to compliance with obligations and, finally, a public draw will be held.

7.12 Once the lowest-price final bid has been determined, the Auctioneer may negotiate with the bidder to obtain a better price, observing the judgment criteria, and negotiating conditions other than those provided for in this Process is not permitted.

## **8. ACCEPTABILITY OF THE WINNING PROPOSAL**

8.1 Once the negotiation stage is closed, the auctioneer will examine the proposal classified in first place regarding the adequacy to the subject matter and the compatibility of the price in relation to the maximum stipulated for contracting in this Bidding Process and its annexes.

8.2 If there is only one offer and provided that it meets all the terms of this process and that its price is compatible with the estimated value of the contract, it may be accepted.

8.3 If the lowest value proposal is not acceptable, or is disqualified, the Auctioneer will examine the subsequent proposal, and so on, in the order of classification, until the determination of a proposal that meets the Bidding Process.

8.4 In this situation, the Auctioneer may negotiate with the bidder in order to obtain a better price.

8.5 When judging the proposals, the Auctioneer may correct errors or failures that do not change their substance, by means of a reasoned order, recorded in minutes and accessible to all, attributing validity and effectiveness to classification purposes.

8.6 If the proposal of the bidder holding the lowest price is acceptable, he must prove his qualification condition, as determined in this Process.

8.7 The winning proposal or bid will be disqualified if:

8.7.1 does not comply with the requirements set out in this tender process;

8.7.2 it contains an irreparable defect or illegality;

8.7.3 does not present the specifications required by the Reference Term;

8.7.4 submit a final price higher than the maximum fixed price.

8.8 If there are indications of unfeasibility of the price proposal, or in the case of need for further clarifications, steps may be taken so that the company proves the feasibility of the proposal.

8.9 When the bidder presents a final price lower than 30% (thirty percent) of the average of the prices offered for the same item, and the unenforceability of the proposal is not flagrant and evident by the analysis of the cost spreadsheet, and its immediate disqualification is not possible, it will be mandatory to carry out steps to verify the legality and feasibility of the proposal.

8.10 Once the analysis regarding the acceptance of the proposal is concluded, the auctioneer will verify the qualification of the bidder, observing the provisions of this Bidding Process.

## **9. QUALIFICATION**

9.1 As a precondition to the examination of the qualification documentation of the bidder holding the bid ranked first, the Auctioneer will check for possible non-compliance with the conditions of

participation, especially regarding the existence of a sanction that prevents participation in the event or future contracting.

9.1.1 Once the existence of a sanction is verified, the Auctioneer will consider the bidder disqualified, due to lack of participation condition.

9.2 If the conditions for participation are met, the qualification of the bidders will be verified through the presentation of the following documents:

9.3 Legal qualification:

- a) Instrument of incorporation of the supplier;
- b) Document of incorporation of the company, if any; and
- c) Operating license, commercial registration or document authorizing the operation of the company.

9.4 Economic-Financial Qualification:

b) Company statement (ANNEX II), informing:

i) the bidder's legal name, as it must appear on any futures contract, Tax Registration Number or equivalent, and full address;

ii) that it is not in bankruptcy, insolvency, suspended or prevented from bidding or from any commercial transaction with the Public Administration; and

iii) that it is aware of the entire content of this Bidding Process and its Annexes and that it fully accepts and submits to the conditions and requirements contained therein, as well as the legislation relevant to the subject.

c) Copy of a valid identity document or passport of the legal owner / managing director who is signing the documents on behalf of the Bidder.

d) If the person signing the documents is only a representative, Annex III must be attached together with the qualification documentation, attaching the valid identity document or passport of the legal owner / administrative director who signed the Annex, as well as the representative.

9.5 Technical Qualification:

a) Present at least one Certificate proving to have carried out international removals. For Certificates issued by private sector companies, those belonging to the same business group as the bidder, its subsidiary, controlled or controlling company and by a company in which there is at least one individual or legal entity that is a partner of the issuing company and of the bidder will not be considered.

9.6 Others

a) Declaration of the company (ANNEX IV), informing the branch of activity of the business or documents of the company that prove the branch of its activity: Certificate of Registration/Incorporation, or Certificate of Incorporation of the company, or Articles of Association, or other organizational document similar;

9.7 The declaration of the winner will take place immediately after the qualification phase.

9.8 If there is a need to thoroughly analyze the required documents, the Auctioneer will suspend the session, informing the new date and time for its continuation.

9.9 The bidder who does not prove his qualification, either for not presenting any of the documents required for that purpose, or for presenting them in disagreement with the provisions of this Bid Process, will be disqualified.

## 10. FORWARDING THE WINNING PROPOSAL

10.1 The final proposal of the bidder declared the winner must be sent within 48 (forty-eight) hours, counting from the request of the Auctioneer.

11.2 The lack of immediate and motivated manifestation of the bidder as to the intention to appeal will result in the forfeiture of this right.

11.3 It is the responsibility of the Auctioneer to receive, examine and decide on the appeals, forwarding them to the competent authority when it maintains its decision.

11.3.1. The analysis regarding the receipt or not of the appeal, by the Auctioneer, will be restricted to the verification of the timeliness and the existence of motivation for the intention to appeal.

3.4 Considering that the execution of the object occurs predominantly abroad, since the transportation of luggage starts abroad (measurement, packaging, collection, transportation), besides all the procedures regarding the clearance performed and intermediated by the company abroad, the bidding will be held abroad.

#### **4 DESCRIPTION OF THE SOLUTION:**

4.1 The hiring of a specialized company for luggage transportation at the end of the mission abroad is extremely important so that the object is fulfilled and meets the needs of civilians, military personnel and their families, whose end of the mission is essential upon their return to Brazil. Thus, the demand will be met in a way that is advantageous to the Administration, standardized and as previously authorized by CABE.
