

Anexo I - Technical Specification nº 001/TENG/2024

**MINISTÉRIO DA DEFESA
COMANDO DA AERONÁUTICA
PARQUE DE MATERIAL AERONÁUTICO DO GALEÃO**

TECHNICAL SPECIFICATION (TS)

TS n° 001/TENG/2024

Revision: BASIC

Issued on: February 19th 2024

Classification: NONE

Distribution: CABW

1. INTRODUCTION

1.1. In 2024, Brazilian Air Force (BAF) will begin the process of overhauling the landing gear assemblies of its A330-243 aircraft. To avoid a reduction in the availability of its fleet during this period, given the complexity of the services carried out at the Authorized Maintenance Center (CMA), the Logistics Command (COMGAP) decided to buy used landing gear, with a minimum availability of 3 years of operation, before stopping for the next workshop visit.

1.2. The purpose of this Technical Specification is to present the conditions that the set of landing gear to be purchased must meet, serving as a parameter for the commercial proposals to be submitted in the bidding process to be conducted by the CABW.

1.3. These landing gears will be delivered in containers and their ownership will be transferred to the Brazilian Air Force.

2. LANDING GEARS IDENTIFICATION

2.1. MAIN LANDING GEARS - MLG

- MLG model: Enhanced Gear;
- MLG (RH) Part Number: 10-210201-006;
- MLG (LH) Part Number: 10-210101-006;
- Manufacturer: Safran Landing Systems;
- Application: A330-243; and
- Quantity: 01 EA (RH) and 01 EA (LH).

2.2. NOSE LANDING GEAR

- NLG model: Reinforced;

- NLG Part Number: D23581100-20;
- Manufacturer: Safran Landing Systems;
- Application: A330-243;
- Quantity: 01 EA.

2.3. LANDING GEAR CONTAINER

- Container ATA 300 category 2 All-purpose padding;
- Application: MLG and NLG of this Technical Specification;
- Quantity: 03EA.

3. LANDING GEARS/CONTAINER CONDITIONS (BAF PARAMETERS)

3.1. Landing gear set parameters:

- Maximum of 93,750 hours since new (TSN);
- Maximum of 15,000 cycles since overhaul (CSO) or new (CSN);
- Maximum of 7.5 years since the date of the first flight after the installation of the item overhauled or new;
- The landing gear assembly must be configured with parts with a limited life (LLP) that register a minimum availability of 25% of cycles and flight hours for the A330-243;
- All the parts listed in Maintenance planning document (MPD), Appendix 7 A330-200/300, A330-800/900 and A330-200F, Landing gear overhaul procedures, must be delivered (revised/inspected/tested): Components Requiring Overhaul, Airbus Parts Requiring Overhaul, and Items Not Subject to Overhaul;
- Line Replaceable Units (LRU) of the landing gear set accessories must be delivered together and must have availability accordingly;
- The landing gear assembly must have form 8130-3 (Airworthiness Certificate) of the last overhaul and the inventory of yours sub assy that was revised/inspected/tested according to Maintenance planning document (MPD), Appendix 7 A330-200/300, A330-800/900 and A330-200F, Landing gear overhaul procedures;
- The landing gear assembly must have a current inventory with all the information of your sub assy.
- No Airworthiness Directive should expire along following twenty four months or 300 cycles after landing gear set delivery for Brazilian Air Force;
- The landing gear assembly must be stored and preserved in accordance with the Safran Landing Systems Manuals for the longest acceptable period of time, applicable to all modes of travel (land, air and sea), and documentation must be sent proving its execution and maintenance;
- If the landing gear set presented by the supplier has left the shop visit, it must present reports from the bench tests (TEST CELL).

3.2. At bid, SELLER must present following data:

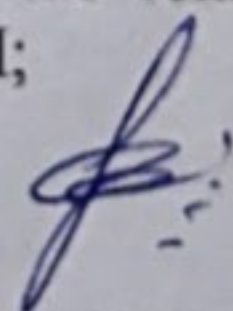

- TSN, CSN, TSO, CSO of the landing gear set and LLP set;
- Flight Hours and Cycles availability for all LLP;
- Part movement traceability sheet for the landing gear set and for the all LLP set;
- Copy of CURRENT FORM 8130-3 — Airworthiness Certificate;
- Copy of the inventory with all the information of yours sub assy; and
- Last preservation record of the landing gear set and maintenance documentation

during storage according to the Safran storage manual.

- 3.3. Documents to be submitted with landing gear set:
- TSN, CSN, TSO, CSO of the landing gear set and LLP set;
 - Part movement traceability sheet for the landing gear set and for the all LLP set;
 - Copy of FORM 8130-3 (Airworthiness Certificate) of the last overhaul and the inventory of yours sub assy that was revised/inspected/tested according to Maintenance planning document (MPD), Appendix 7 A330-200/300, A330-800/900 and A330-200F, Landing gear overhaul procedures.
 - Copy of CURRENT FORM 8130-3 — Airworthiness Certificate; and of the inventory with all the information of yours sub assy; and
 - Last preservation record of the landing gear set and maintenance documentation during storage according to the Safran storage manual.
- 3.4. Landing gear set containers conditions: the landing gear set containers must be new or in perfect use conditions.

4. COMPLEMENTARY CAMO REQUIREMENTS:

- 4.1. It must be compatible with the current BAF Weight Variant (WV) and with current LG configuration:
- MLG COMPLETE (CMM 32-12-60) with P/N 10-210101-006 (LH) and 10-210201-006 (RH) and blank strike plate;
 - MAIN STRUT AND DRESSING (CMM 32-12-61) with P/N 10-210501-003 (LH) and 10-210601-003 (RH) and 07 + 08 + 09 strike plate; and
 - BOGIE AND DRESSING (CMM 32-12-63) with P/N 10-211501-001.
- 4.2. It must hold a history FREE of accidents / fires and hard landing damages;
- 4.3. It should not have undergone more than 1 overhaul;
- 4.4. The complete back to birth data of all installed parts, and particularly of all Life Limited Parts (LLP), must be available;
- 4.5. Its LLP (as per ALS A330 Part1) must have enough remaining life and a maximum accumulated life below the “Maximum LLP Accumulated Life” data highlighted in blue in the attached Excel file. These maximum values have been calculated considering suitability for a potential MRTT conversion of the KC-30 fleet;
- 4.6. Its LLP shall not hold any concession implying a life reduction.
- 4.7. It shall not hold any corrosion concessions or repairs implying limitations in future overhauls or not reaching the 10 years overhaul cycle;
- 4.8. It must be free of pending Airworthiness Directives (AD) implying a landing gear removal;
- 4.9. If it has pending AD, not requiring a landing gear removal, the remaining compliance time of the AD must be bigger than 1 year / 1800 FC / 3600 FH;

4.10. It must be complete and it must include the landing gear dress (all electrical harnesses, lights mounts and any other hardware);

4.11. It must be acquired with its own containers for shipment and for long term storage.

5. DELIVERY CONDITIONS

5.1. Delivery conditions are established in the Terms of Reference.

6. DELIVERY SCHEDULE AND RECEIVING

6.1. The delivery and receipt schedule is established in the Terms of Reference.

7. WARRANTY

7.1. The warranty rules are established in the Terms of Reference.

8. TECHNICAL ASSISTANCE

8.1. The technical assistance rules are established in the Terms of Reference.

9. PAYMENT

9.1. The payment rules are established in the Terms of Reference.

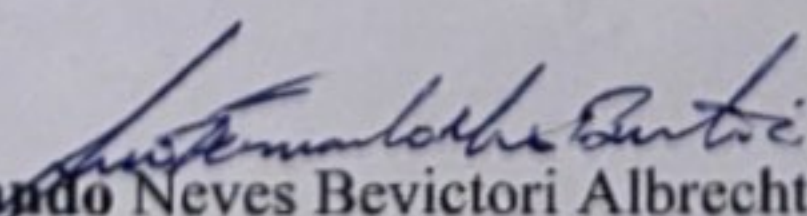

10. TAXES AND FEES

10.1. The rules on fees and taxes are established in the Terms of Reference.

11. FINAL DISPOSALS

11.1. Doubts concerning the present Technical Specifications should be presented to PAMA-GL, addressed to:

**Anexo II - Carta nº 22/LOG/219, de 30/01/2024, da CABW -
Request For Information (Airbus Defence and Space SAU)**

MINISTÉRIO DA DEFESA
COMANDO DA AERONÁUTICA
COMISSÃO AERONÁUTICA BRASILEIRA EM WASHINGTON

Carta nº 22/LOG/219
Protocolo COMAER nº 67102.000217/2024-28

Washington, 30 de janeiro de 2024.

AIRBUS DEFENCE AND SPACE SAU - Cage Code 0117B
CALLE AVIIOCAR Nº 2, GETAFE
MADRID – SPAIN – 28906

Dear Mr. Sales Representative,

1. When greeting you, we present a matter related to a Request For Information about an acquisition of a **landing gear set for an Airbus A330-200 aircraft**. Therefore, I ask you to verify the possibility of providing information as described below:

A. Objective: Acquisition of a landing gear shipset for the A330-200 Aircraft in accordance with the following data:

Nose Landing Gear Complete - PN: D23581100-20;

Main Landing Gear Complete (Left) - PN: 10-210101-006;

Main Landing Gear Complete (Right) - PN: 10-210201-006.

B. Necessary information: Brazilian Air Force requests some information that will be listed in the following items, to find out the conditions offered by the companies. Our team will then analyze the information received and continue the contracting process, opening a bid.

B1. QUOTATION FOR THE REQUESTED ITEM:

What is the estimated price for purchasing each of the items described above?

B2. SHIPSET CONDITIONS

B2.1. Is the item offered overhauled? If not, what is the due date for the next overhaul?

B2.2. How many Overhauls has this landing gear been subjected to?

B2.3. Are there any pending airworthiness directives?

B3. DELIVERY TIME

Can the offered landing gear be delivered before July 2024?

1701 22nd St, N.W. - Washington - DC - CEP:20008-1931 - Tel: (202) 483-4031 / FAX: (202) 483-4684 - Email: protocolo.cabw@fab.mil.br

B4. DELIVERY PLACE

B4.1. Can the offered landing gear be delivered to any of addresses listed in the link https://www.2.fab.mil.br/cabw/images/PDF/Shipping_Information.pdf .

2. The company, in its response, may insert additional information and observations that it deems pertinent.
3. This request for information is a preliminary activity and does not create an obligation between FAB and the company.
4. The prices shown are not final values and will only be considered as Rough Order Magnitude.
5. We kindly request that company information be submitted within **5 (five) working days**.
6. Further information regarding the Bidding Process using Electronic Reverse Auction (e-RA) managed by Brazilian Aeronautical Commission (BACW) can be found at the link <https://www.fab.mil.br/cabw>.

Respectfully,

Bruno Luiz Santana de Araujo Lt. Col. Av.
Head of Logistics Division

**Anexo VIII - Consulta e Resposta Trem de Pouso do nariz,
de 17/11/2023 - Request For Quote (Aerotechnic USA Inc.)**

Rqst or *****: means **QTY** and/or **LT** must be Confirmed/Requested. Please contact Sales to confirm availability(ies).

*****: means **UNIT PRICE** must be Confirmed because it may be under MOQ. Please contact Sales to confirm prices.

MOQ: means the requested quantity is below our Minimum Order Quantity.

LEADTIME: means Estimated Lead-Time (nb working days) / **Stk**: means Part in Stock.

INCOTERMS: means "Ex-Works", as per latest "Incoterms".

Certificate(s) provided: All parts supplied with: (a) Manufacturer COC or (b) EASA Form1/FAA 8130-3 or as specified.

STK QTY: Quantity available in stock.

MLV: Minimum Line Value might apply. **MLV** fees might be added unless **N/A** (Not Applicable) is displayed.

MOV: Minimum Order Value might apply. **MOV** fees might be added (*as it is linked to the No of PN in the Basket/Proforma*) unless **N/A** (Not Applicable) is displayed.

CORE VALUE: Outright given per unit when repair/overhaul operation is unachievable.

⚠ Warning: MLV fees and **MOV fees** correspond to the amount that will be applied on top of your order since you might not reach **MLV** or **MOV**. You can increase the requested quantity to decrease **MLV** or **MOV fees**.

Abbreviations & Acronyms:

ITEM	Item number
P/N	Part Number
DESCR	Description
CD	Condition
QTY	Quantity
UOM	Unit Of Measure
LT	Lead-Time (nb wrkng days)
Stk	Stock
Rqst	On Request
MOQ	Minimum Order Quantity
TBA	To Be Advised

Conditions

NE	New
FN	Factory New
OH	Overhauled
SV	Serviceable
AR	As Removed
NS	New Surplus
RP	Repaired

Standard "Terms and Conditions" apply, and are available upon request.

Price, availability and lead-time (nb working days) are subject to change without prior notice and have to be confirmed as order is received.

For Exchange Orders, Core Value must be confirmed, Exchange Agreement to be Signed.

Parts are subject to inspection before release.

Pricing is based on quantities requested.

For AOG order of a total value lower than EUR/USD **300.00**, an AOG Fee of EUR/USD **300.00** will apply or as imposed by original source of supply (a copy will be supplied).

Credit Terms / Payment Means: **To be Approved** or **Net 30 Days end of month / Wire Transfer**

Prices are exclusive of any applicable Customs Duties and/or any other taxes(VAT/GST/other) and/or licenses.

Prices Quoted might be subject to Exchange Rate fluctuations at the date of invoice (as applicable).

For Cash In Advance (CIA) payment, please add EUR/USD **30.00** wire transfer fees.

Material return must be accompanied with a duly completed Return Material Authorization (RMA).

No return accepted after **30** days, unless otherwise agreed upon in writing between the parties.

Restocking fees of **10%**; or as imposed by original source of supply (a copy will be supplied) will apply, for reasons other than warranty.

Shipping charges are not included, volumetric or Hazardous material will attract additional charges.

This offer is valid for thirty Days and for commercial applications only.

Some material, with commercial and/or military applications, might require Import / Export or Re-Export license or permit.

Material may not be transferred or otherwise disposed in any other countries, either in its original form or being used on other end-items, without a valid Import / Export or Re-Export authorization, license or

Permit (as applicable).

B1. QUOTATION FOR THE REQUESTED ITEM: ROM price for the complete set of 1ea Nose Landing Gear and 2ea Main Landing Gears (LH and RH) is 5.400.000,00 USD.

B2. SHIPSET CONDITIONS: Airbus DS has proposed two first overhauled shipsets (i.e. with 10 years of operation) and one inspected shipset with an overhaul due date in April 2026 (number of overhauls to be confirmed). None of these would have been delivered with pending Airworthiness Directives involving shop works. However, none of these three shipsets are now available. Specific shipset conditions shall be disclosed during tendering process depending on the market availability at that time.

B3. DELIVERY TIME: Delivery dates depend on the tendering process dates. However, it must be noted that lead times are not short given that an overhaul or inspection of the shipset must be performed before delivery. For reference purposes, the delivery date stated in proposals reference [3] and [4], issued in quarter 4 of 2023, was June 2024.

B4. DELIVERY PLACE: Airbus DS can deliver in to different locations in Europe, such as Hamburg or Seville.

I remain available for any clarification needed and hope that the information submitted helps the *Comando Da Aeronáutica* to run a successful tender process.

Yours faithfully,

Arantxa Alemany Arnal
Services Program Manager

[ANNEX 1] Proposal to the Brazilian Air Force for an A330 spare landing gear shipset

Subject: A330 spare landing gear shipset sale

Dear Sir,

As requested, Airbus Defence and Space is pleased to submit the hereby-attached proposal [ANNEX I] for the provision of an A330 landing gear spare shipset.

Should the quotation be of your interest, please, submit your Purchase Order referring to TAS-FZ-CO-23-0022. I remain at your disposal.

Yours faithfully,

Arantxa Alemany Arnal

ANNEX 1

PROPOSAL

TO THE **BRAZILIAN AIR FORCE** FOR
an A330 spare landing gear shipset

1. INTRODUCTION

This document contains the scope, prices and other conditions of reference for the provision by Airbus Defence and Space of an A330 spare landing gear shipset.

2. ASSUMPTIONS

Main assumptions used in the scope of work are outlined within the corresponding section of the document. Changes in the assumptions will imply the need for revision of the document and the corresponding commercial proposal.

3. SCOPE OF WORK

Delivery of one overhauled A330 enhanced landing gear shipset after first overhaul, i.e. with 10 years of operation (TBO = 10 years), and with an estimated age of 46000 FH / 7000 cycles. The shipset is composed of 1ea NLG with forestay and 2ea MLG with side stay.

The landing gear will be delivered with following documentation:

- Serviceable TAG (EASA Form One / FAA Dual Release Certificate 8130-3);
- SB / AD – status report;
- Non Incident Statement with detailed information for the timeframe of Landing Gear operation;
- Status of life limited components in accordance with ALS Part 1 & 4 requirements;
- B2B History;
- Movement Traceability Sheet (MTS) for each life limited part;
- Finding report for all repairs performed on major components;
- List of scrapped major parts;
- List of repairs beyond CMM limits (Engineering approved repairs and / or OEM concession).

[ANNEX 1] Commercial Proposal for Landing Gear Overhaul and Dummy Loan

Subject: Landing Gear Overhaul and Dummy Loan

Dear Sir,

Airbus Defence and Space is pleased to submit the hereby-attached **updated** proposal [ANNEX 1] for the Overhaul of FAB2901 and FAB2902 landing gears, scheduled in November 2023 and April 2024, respectively, as agreed as per document reference [4].

Additionally, given that commercial proposal [3] for a spare landing gear shipset was not contracted, the loan of a dummy landing gear is also proposed herein.

Airbus Defence and Space and their partners have not been able to locate the necessary hangar space to park and store the aircraft on jacks without landing gears during the required turn-around time of the landing gear overhaul. It is not recommended to keep the aircraft out of the hangar in this condition. If Brazilian Air Force cannot provide the required hangar space, the availability of a dummy landing gear has to be assured.

The validity of the proposal is very short, given that overhaul slots and dummy landing gear availability have to be booked in advance.

Please, submit your Purchase Order referring to TAS-FZ-CO-23-0026B.

Not technical (this item is not subject to Export Control)

**Dummy Landing Gear loan period for 10 months, from nov-23 to aug-24, excl. transports:
266.499 USD**

**Dummy landing gear transport (one way):
122.252 USD**

Concept	DUMMY LG excl. transports
TOTAL DUMMY LANDING GEAR LOAN	266.499 USD
Invoiced monthly	26.649,90 USD
Concept	DUMMY LG transports
TOTAL TRANSPORTS (two ways)	244.504 USD
Invoiced after DUMMY LG reception in Brazil	122.252 USD (sched. nov-23)
Invoiced after DUMMY LG reception in Germany	122.252 USD (sched. aug-24)

Dummy loan per additional day due to causes not under Airbus DS responsibility:
914 USD

Prices are valid for a campaign of two landing gear overhauls, as per presented schedule.

7. OTHER CONDITIONS

Refer to contract ref. [2] standard terms and conditions.

Subject: Spare landing gear buy-back

Dear Sir,

Airbus Defence and Space (ADS) has analysed your proposal of buy-back, at the end of the landing gear overhaul campaign, of the spare landing gear shipset that would be initially acquired by Brazilian Air Force (BAF) for the overhaul noria.

ADS cannot keep the spare landing gear in stock and would have to re-sell the landing gear either to another military customer or to the civil market.

The option of re-selling the landing gear to a military customer could be further analysed in the future, but, at this stage, no potential customers have been identified. All the military customers either have a shipset on their own or have an overhaul calendar that is not compatible with BAF's one.

The option of returning a military-used landing gear to the civil environment would require that all airworthiness limitations affected parts are discarded and new parts are installed. The concerned parts include all ALS 1 and ALS 4.1 affected parts, such as but not limited to:

Not technical (this item is not subject to Export Control)

The need to replace all these parts by new parts makes economically unfeasible to re-sell the landing gear set to the civil world. This is also empowered by the reluctancy of some airlines to install on their aircraft items used in a military or state aircraft.

We understand the limitations that might exist in your storage facilities to guarantee the temperature and humidity conditions that are required for the correct preservation of a spare landing gear shipset, but, summarizing, I regret to inform that ADS cannot issue a buy-back proposal at this stage.

We remain at your disposal for any further clarification and for the formalization of BAF's choice for the landing gear campaign strategy.

Yours faithfully,

Arantxa Alemany Arnal
Services Program Manager

PARTE B - OPERAÇÕES E LIMITAÇÕES / PART B - OPERATIONS AND LIMITATIONS

Este item apresenta apenas as autorizações de caráter geral ou que contenham limitações operacionais. As aprovações, autorizações, limitações e isenções constantes nestas Especificações Operativas permanecerão válidas durante o período de vigência do respectivo COA, a menos que a ANAC as suspenda, ou as revogue, ou que haja necessidade de sua atualização por parte de alterações na operação. O operador somente está autorizado a conduzir operações em acordo com estas Especificações Operativas, em conjunto com o seu sistema de manuais, aceitos ou aprovados pela ANAC. O operador deve portar a bordo da(s) aeronave(s) autorizada(s) cópia destas Especificações Operativas.

This item presents only authorizations of a general nature or that contain operational limitations. The approvals, authorizations, limitations and exemptions contained in these Operations Specifications will remain valid for the duration of the respective AOC, unless ANAC suspends them, or revokes them, or there is a need for them to be updated by changes in the operation. The operator is only authorized to conduct operations in accordance with these Operations Specifications, in conjunction with its manual system, accepted or approved by ANAC. The operator must carry on board the authorized aircraft(s) a copy of these Operations

Specifications.

B.1 AUTORIZAÇÕES DO OPERADOR / OPERATOR'S AUTHORIZATIONS

B.1.1 TRANSPORTE DE ARTIGOS PERIGOSOS / TRANSPORTATION OF DANGEROUS GOODS

SITUAÇÃO / STATUS:

Autorizado - Authorized

OBSERVAÇÕES / LIMITAÇÕES / RESTRIÇÕES (NOTES / LIMITATIONS / RESTRICTIONS)

O operador está autorizado ao transporte de artigos perigosos segundo as disposições estabelecidas na regulamentação e conforme seu Manual de Artigos Perigosos - MAP e seu Programa de Treinamento de Artigos Perigosos - PTAP aprovados.

B.1.2 PROGRAMA DE ANTIGELO/DEGELAMENTO EM SOLO / GROUND ANTI-ICING/DEICING PROGRAM

X APROVADO / APPROVED

NÃO APROVADO / NOT APPROVED

OBSERVAÇÕES / LIMITAÇÕES / RESTRIÇÕES (NOTES / LIMITATIONS / RESTRICTIONS)

Não há observações / No restrictions applicable

B.1.3 GERENCIAMENTO DE RISCO DE FADIGA HUMANA / HUMAN FACTORS RISK MANAGEMENT

TIPO / TYPE	APLICABILIDADE / APPLICABILITY	DOCUMENTO DE REFERÊNCIA / REFERENCE	DESCRIÇÃO / DESCRIPTION
Gerenciamento de Risco da Fadiga - Fatigue Risk Management	Todas as operações exceto as eventualmente associadas a um SGRF aprovado.	MGO e MGRF.	Conforme RBAC nº 117.
Sistema de Gerenciamento de Risco da Fadiga - Fatigue Risk Management System (FRMS)	Aeronave Modelo 737-48E	-	Autorizado o Plano de Demonstração e Coleta de Dados (FASE 04) do SGRF, conforme estabelecido pela IS 117-004, para a aeronave modelo 737-48E conforme os parâmetros estabelecidos no processo 00066.011872/2022-52

Assunto: **Informação sobre operadores brasileiros das aeronaves modelo A330**

Referência: **Processo 00066.003517/2022-18**

Prezado Senhor,

1. Em atenção ao processo da referência, relativo à solicitação da relação de operadores brasileiros das aeronaves modelo Airbus A330, encaminhado pelo operador Azul Linhas Aéreas por meio da Carta nº SEI 6984462, informo a V.Sa. que, conforme registrado nas Especificações Operativas - EO dos operadores brasileiros regidos pelo RBAC nº 121, somente a seguinte empresa aérea opera, atualmente, as aeronaves modelo A330:

- Azul Linhas Aéreas Brasileiras S/A.

2. Cabe ressaltar que a empresa acima se trata do único operador brasileiro das aeronaves em tela, sendo que outros operadores estrangeiros, regidos pelo RBAC nº 129, operam este modelo de aeronave em território brasileiro;

3. Esta Gerência permanece à disposição para esclarecimentos adicionais.

Atenciosamente,

Leonardo Gonçalves Coutinho

Gerente Técnico de Certificação

Assunto: Solicitação de Informações (Request for Information – RFI) sobre aquisição de conjunto de trem de pouso para aeronave Airbus A330-200.

Prezado Senhor(a),

1. Ao cordialmente cumprimentá-lo, passo a tratar de assunto relacionado a uma Solicitação de Informações (Request for Information – RFI) sobre aquisição de conjunto de trem de pouso para aeronave Airbus A330-200. Sobre o tema, solicito que seja verificada a possibilidade do fornecimento das informações apresentadas a seguir.

2. Objetivo: Aquisição de trem de pouso para Aeronave A330-200 de acordo com os seguintes dados:

Trem de pouso de nariz completo - PN: D23581100-20;

Trem de pouso principal completo (esquerdo) - PN: 10-210101-006; e

Trem de pouso principal completo (direito) - PN: 10-210201-006.

3. Informações necessárias: A Força Aérea Brasileira solicita algumas informações que serão listadas nos itens a seguir, para conhecer as condições oferecidas pelas empresas. Nossa equipe analisará então as informações recebidas e dará continuidade ao processo de contratação.

4. COTAÇÃO DO ITEM SOLICITADO:

a) A empresa possui disponibilidade e condições de ofertar os itens descritos no parágrafo 2 em um processo licitatório?

b) Qual o preço estimado para aquisição de cada item descrito no parágrafo 2?

5. CONDIÇÕES

a) O item oferecido é revisado? Caso contrário, qual é a data prevista para a próxima revisão?

b) A quantas revisões esse trem de pouso foi submetido?

c) Há alguma diretriz de aeronavegabilidade pendente?

d) Qual a disponibilidade de horas e ciclos dos trens?

e) O conjunto de trem pode ser entregue no Brasil?

6. PRAZO DE ENTREGA

a) O trem de pouso oferecido pode ser entregue antes de julho de 2024?

7. Disposições finais: Esta solicitação de informações é uma atividade preliminar e não cria obrigação entre a FAB e a empresa. A empresa, em sua resposta, poderá inserir informações e observações adicionais que julgar pertinentes. Os preços apresentados não são valores finais e serão considerados apenas como uma aproximação.

8. Solicitamos que as informações da empresa sejam enviadas dentro de um limite de 5 (cinco) dias úteis para os seguintes endereços eletrônicos: protocolo.pamagl@fab.mil.br, herbertrhpw@fab.mil.br, alexandremouraama@fab.mil.br, e luisfernandolfnba@fab.mil.br.

de pouso para aeronave Airbus A330-200.

Prezado Senhor,

Ao cordialmente cumprimenta-lo, gostaríamos de deixar registrado o orgulho da nossa empresa em receber o pedido de RFI (Request for Information) referente a aquisição de um conjunto de trem de pouso para aeronave Airbus A330-200,

Com relação à possibilidade de fornecimento deste conjunto de trem de pouso informamos que até o presente momento não temos as condições em atender a sua RFI (Request for Information) em atendimento a nossa Força Aérea Brasileira,

Aproveitando o ensejo para renovar nossos sinceros protestos de elevada estima e consideração.
