

BRAZILIAN AIR FORCE <u>AERONAUTICAL AND WARFARE MATERIEL DIRECTORATE</u> SÃO PAULO MAINTENANCE DEPOT

TECHNICAL SPECIFICATIONS nº 004/TMOT/2024

DATE: May 13th, 2024

I. PURPOSE

This Technical Specification (TS) has the purpose to present the collection of necessary and sufficient elements, with an adequate level of accuracy, to define the exchange by Fleet Enhancement Program – FEP of 01 (one) PRATT & WHITNEY PT6A-68C engine. This engine is applied in A-29 SUPER TUCANO aircraft, belonging to the fleet of Brazilian Air Force.

II. OBJECT

The exchange by Fleet Enhancement Program – FEP of 01 (one) PRATT & WHITNEY PT6A-68C engine, Serial Number PCE-RS0008, by a NEW PT6A-68C engine respecting the requirements described on this document.

Some information about the engine currently in the Brazilian Air Force fleet are listed at the table below:

MODEL	PN	SN	TSN	TSO	CYCLES
PT6A-68C	3055973-01	PCE-RS0008	4067:00	NEW	3047 CY

III. REASONS FOR REMOVAL

The engine PT6A-68C SN PCE-RS0008 was removed from the aircraft because of the following reasons:

- DEBRYS: and
- HIGH T5.

I. ENGINE DATA

1. Life Limited Parts – Service Life Data

The following table shows the number of accumulated cycles (AC Cycles) since new the rotary components of the engine have completed.

			LFC	
COMPONENT	PN	SN	LIMIT	AC CYCLES
	3123394-01	78A387		
Shaft, Compressor Rotor		10A301	24000	19116
Rotor, Compressor (First-		205740		
Stage)	3042701	39E749	24000	19116
Rotor, Compressor	3040942	86B318	24000	19116
(Second-Stage)	3040942		24000	19110
Rotor, Compressor (Third-	3040933	TXA1D4750	24000	20772

Stage)				
Rotor, Compressor (Fourth-	3040944	TXA1D4922	24000	20772
Stage)	3040944	1AA1D4922	24000	20112
Impeller, Centrifugal	3059405-01	TXA1D4577	24000	19965
Disk, Compressor Turbine	3058528-01	A001E47X	6000	2702
Disk, Power Turbine (First-		A001F6MR		
Stage)	3056485-01	AUUTFOIVIR	15000	11867
Disk, Power Turbine		A001ELP8		
(Second-Stage)	3123253-01	AUUTELFO	15000	11853

Soft Time Accessories Data and Disposition

ACCESSORY	PN	SN	TSN	TSO
Fuel Metering Unit (FMU)	3056808-02	14081843	4728:10	NOVO
Propeller Interface Unit		13764621		
(PIU)	3056810-01	13/04021	1837:15	NOVO
Fuel Pump	3056787-04	0169	3984:00	NOVO
Permanent Magnet	3071980-02 EC01	EC01A001A663	3078:40	NOVO
Alternator (PMA)		ECUTAUUTA003		NOVO
Compressor Bleed Valve	3057571-01	AUV000967	3341:00	NOVO
Assembly (BOV)	3037371-01	AHX000867		
Torque Probe	3077796-02	00198CHA30380	1428:40	NOVO

Wiring Harness, Front	3123313-02	EMA120655	4067:00	NOVO

II. ESTIMATED COST

According to market estimates, the maximum purchase price for the exchange by Fleet Enhancement Program – FEP is US\$2,114,000.00 (two million one hundred and fourteen thousand dollars).

III. <u>TECHINICAL REQUIREMENTS</u>

The engine and all its accessories must be at NEW. It Means that they must have accumulated no more operating hours than those necessary to accomplish their manufacture testing process. The engine and accessories shall not have been used by any previous operator.

The engine must be in airworthiness condition and up to date with respect to the Service Bulletins issued by the manufacturer. At delivery, it must has already undergone

the actions to comply with all the applicable Service Bulletins issued so far.

IV. <u>DELIVERY</u>

The engine shall be delivered at the Brazilian Aeronautical Commission in Washington (CABW) warehouse, which address will later be informed, with all caps and covers as per the engine Maintenance Manual, and mounted in the approved P&WC shipping container. The engine must be at a preserved condition considering that it might be stored for over 91 days, in accordance with the requirements of the Maintenance Manual.

V. TECHNICAL WARRANTY

The engine shall be subjected to the technical warranty which is either 12 (twelve) months of operation or 1000 (one thousand) operation hours, whichever occurs first.
