PBR108001CP	192/2024	30903959	CARTRIDGE FIREX-BOTTLE - CARTRIDGE FIREX-BOTTLE - Item used on KC-390 aircraft. The term "CARTRIDGE FIREX BOTTLE" refers to the "Fire Extinguishing Bottle Cartridge" and is an important component of the fire extinguishing system used in the KC-390 aircraft, being designed to detect, contain and extinguish fires in different areas critical parts of the aircraft, such as cargo compartments, engine compartments and hydraulic systems. When a fire is detected in a protected area of the aircraft, the item is electrically activated, which causes the release of the extinguishing agent. This agent is released in the form of gas, creating a mist that smothers the fire and prevents its spread. Manufacturing date, service life, shelf-life and technical order number are required.	1377	59734	1	US\$ 4287.00	01/07/2024 11:00:00 GMT-3 (-03:00)

PBR108001CP	192/2024	30903959	CARTRIDGE FIREX-BOTTLE - CARTRIDGE FIREX-BOTTLE - Item used on KC-390 aircraft. The term "CARTRIDGE FIREX BOTTLE" refers to the "Fire Extinguishing Bottle Cartridge" and is an important component of the fire extinguishing system used in the KC-390 aircraft, being designed to detect, contain and extinguish fires in different areas critical parts of the aircraft, such as cargo compartments, engine compartments and hydraulic systems. When a fire is detected in a protected area of the aircraft, the item is electrically activated, which causes the release of the extinguishing agent. This agent is released in the form of gas, creating a mist that smothers the fire and prevents its spread. Manufacturing date, service life, shelf-life and technical order number are required.	1377	59734	1	US\$ 4287.00	01/07/2024 11:00:00 GMT-3 (-03:00)
